1. The closing date is still **17 November 2026. Closing time is 16H30**.

2. The implementation period or date.

The distribution of the food parcels shall occur between 8th to 18 December 2026.

3.The package specifications: Will the 500 packages be branded or not?

SIOC-CDT will provide Christmas messages and included in each pack. The service provider must not include branding on any of the items.

4. In the proposal, do we identify and put names of the 500 vulnerable households as well as names of their respective villages?

The names of the beneficiaries will be submitted once the verifications are done and to the appointed companies/organisations.

5. SARS Compliance certificate

It is mandatory to submit a valid Tax pin certificate

6. Could you kindly send me a list of beneficiary communities of Gasegonyane and Joe Morolong.

Please find the comprehensive list of all areas where deliveries shall occur.

LIST OF AREAS WHERE DELIVERIES SHALL OCCUR.

7. What documentation are we expected to obtain from the suppliers we intend to work with, apart from their quotations.

As a lead supplier you need to ensure compliance documents are in place your suppliers. SIOC-CDT shall be contracting with the lead service provider only.

Are there different requirements for food and hygiene suppliers, packaging and labour providers, transport companies, storage facilities and security companies?

Please refer to **Regulation R638 of 22 June 2018**, non-perishable goods are governed by specific rules regarding **packaging, storage, transport, and exemptions**—particularly within **Regulations 3(Excluded) , 7, 8, and 10**

With security providers, would we need their PSIRA registration and any other relevant compliance documents, or would a quotation be sufficient?

For submission purpose you need to demonstrate that a reputable security company is secured and all Security companies need to be PSIRA compliant.

When working with local suppliers, is proof of local business registration or any other documentation required to confirm their eligibility?

It would be ideal to submit the agreement with all potential service providers in an event the project is awarded to your company as it is part of the technical criteria.

Lastly, are there specific SIOC-CDT supplier forms, declarations or supporting documents we need to collect from our proposed suppliers before submitting the tender?

Please visit www.sioc-cdtsmmes.co.za and register on the portal and submit all documents there and/or update the current documents with the relevant ones.
